

CALASTONE ORDER ROUTING

Calastone Order Routing automates the transaction flow of mutual fund orders between counterparties, providing a fully interoperable global solution.

By connecting to the Calastone Network, fund distributors can seamlessly place and route orders directly to fund managers.

Through a single connection, clients are connected to the largest global network of fund managers, transfer agents and distributors and benefit from full straight-through-processing (STP), delivering immediate operational efficiencies and reduced risk associated with manual processing.

How does it work?

Calastone Order Routing uniquely supports all message format types and automatically translates to meet both the sender and receiver's requirements creating interoperability. This means the service can quickly and easily be adopted by both parties, reducing upfront and maintenance costs.

The Calastone difference

Flexible connectivity model

Connect using preferred method, including API

Format agnostic

Supports all message format and type

24 hour support

Proactive support and monitoring

Fast onboarding

Testing and onboarding in days

Global market access

Single connection providing access to the largest global funds network

"The decision to use Calastone was a no brainer given the ease of implementation, risk and cost reduction benefits, and increased operational efficiency."

Manulife, Associate Director

Manulife

Simplifying the fund trading lifecycle

Our ethos is to make global fund trading, settlement, reporting, dividend and transfer processing as simple as possible.

Flexible connectivity model

Connect to us using any method, including API. Secondary connections are regularly set up to increase operational resilience and overcome internal connectivity challenges.

Leading operational support

Calastone is known for providing market leading levels of operational support. The support team even provides proactive and predictive monitoring as well as guidance over capacity management.

Fast onboarding

New users are onboarded promptly, sometimes in days, allowing them to see the benefits of Calastone solutions quickly.
